Numbers

10-100+

Location

Indoors and Outdoors

Timings

Half day & full day

What's involved?

Based on a brief which can range from standard company products to bespoke company values that you want to choose for the teams to use and promote via their film.

We have a large array of props on hand to enable teams to theme their film and it is then up to the teams to allocate roles and responsibilities before starting to put together their masterpiece. Roles include Director, Actors, Location Scouts, Script writers and Costume creators.

The teams will then write a storyboard of their film and write scripts based on the brief given out at the beginning of the event.

We use the high Definition video camera on the iPad2 touch screen tablet, running the iMovie editing app. iPads are the only platform to feature this quality of recording and this editing ability in one device. With a battery life of 8 hours they suit any event.

A professional film crew are always on hand to help and advise. Teams can do as much or as little as they are comfortable with, but the instructor is capable of doing all filming and editing whilst keeping the team motivated throughout.

The films can be played back at the end of the event or left on a data stick for you to enjoy later over dinner etc.

For an additional fee, the event can be hosted by a trained actor to bring your Oscars ceremony to life.

What have people said?

'A really different and beneficial team building activity - innovative, creative and great fun - thank you!'
O2 Airwave

'A very well structured event and professional approach - iPad Filming was an enlightening and worthwhile event for our team'
